

Contracting Authority: European Commission

Raising awareness of climate change and its impacts among young people of Northern Dimension regions

Guidelines for grant applicants

Budget line:

Reference:
EuropeAid/159349/DH/ACT/RU

Deadline for submission¹ of concept notes:

21/05/2018 at 15:30 (Brussels date and time)

(in order to convert to local time click [here](#)²)

¹ Online submission via PROSPECT is mandatory for this call for proposals (see Section 2.2.2). In PROSPECT all dates and times are expressed in Brussels time. Applicants should note that the IT support is open Monday to Friday from 08:30 to 18:30 Brussels time (except for public holidays). Applicants should take note of the weekly maintenance hours mentioned in the PROSPECT user manual.

² An example of a time converter tool available online: <http://www.timeanddate.com/worldclock/converter.html>

NOTICE

This is a restricted call for proposals. In the first instance, only concept notes (Annex A.1) must be submitted for evaluation. Thereafter, lead applicants who have been pre-selected will be invited to submit a full application. After the evaluation of the full applications, an eligibility check will be performed for those which have been provisionally selected. Eligibility will be checked on the basis of the supporting documents requested by the Contracting Authority and the signed 'declaration by the lead applicant' sent together with the full application.

To apply to this call for proposals organisations must register in PADOR and submit their application in PROSPECT (see section 2.2.2 of the guidelines). The aim of PROSPECT is to increase the efficiency of the management of the call for proposals and to offer a better service to civil society organisations through a new panel of functionalities such as the on-line submission and the possibility to follow up online the status of their application.

All organisations can find the e-learning (Annex L) and the PROSPECT users' manual (Annex M) and the FAQ published together with the documents of this call. You may also contact our technical support team via the online support form in PROSPECT³.

³ If PROSPECT is unavailable, the IT support can also be reached via email: EuropeAid-IT-support@ec.europa.eu

1 RAISING AWARENESS OF CLIMATE CHANGE AND ITS IMPACTS AMONG YOUNG PEOPLE OF NORTHERN DIMENSION REGIONS

1.1 BACKGROUND

The Northern Dimension (ND) is a joint policy between the European Union (EU), Russia, Norway and Iceland which promotes dialogue, practical cooperation and development. While it covers a broad geographic area (from the European Arctic and Sub-Arctic to the southern shores of the Baltic Sea, and from north-west Russia in the east to Iceland and Greenland in the west) practical cooperation is mainly focused on the North of the European continent: the Baltic Sea region (shared by the EU and Russia) and the Barents Sea region (shared by Norway, Russia and the EU Member States of Finland and Sweden).

The Northern Dimension regions play a strategic role in EU-Russia relations. Their prosperity, safety and security are of crucial importance not only for directly neighbouring regions and countries but for the whole of Russia and the EU. The EU, Russia and other partner countries have policies, strategies and action plans in place for the regional development under the Northern Dimension. The Joint statement of the 5th ND Parliamentary Forum held in November 2017 underlines the need to have a close interaction between the Northern Dimension policy and the EU Strategy for the Baltic Sea Region, the Russian Strategy of social and economic development of the North-West federal district as well as relevant Arctic policy strategies of the EU, Iceland, Norway and the Russian Federation.

The EU Strategy for the Baltic Sea Region defines three overall objectives: (a) Save the Sea; (b) Connect the Region; and (c) Increase Prosperity. Many of the issues of the EU Strategy for the Baltic Sea Region as well as of the EU Arctic policy are constructively addressed with Russia.

The main objectives of the Northern Dimension policy are to provide a common framework for the promotion of dialogue and concrete cooperation, strengthen stability and confidence building, promote economic integration, competitiveness, sustainable development and foster contacts between societies in Northern Europe. To facilitate the implementation of concrete actions under the Northern Dimension, four Partnerships have been established to engage in the following thematic issues: 1. Environment, 2. Public health and social well-being, 3. Transport and logistics and 4. Culture. Under this framework, the Northern Dimension Institute and the Northern Dimension Business Council have also been created.

The Northern Dimension Environmental Partnership (NDEP) has been the biggest success story of cooperation under the Northern Dimension. The NDEP provides a strong international framework that promotes cooperation between the European Union, relevant Member States, partner governments (including Russia) and international financial institutions. The NDEP's pipeline of environmental projects comprises projects dealing with water and wastewater treatment, management of municipal and agricultural waste and energy efficiency. For projects concerning the Baltic Sea, NDEP cooperates with the Helsinki Commission (HELCOM) and its Baltic Sea Action Plan aimed at eliminating remaining ecological hot spots that have cross-border effects. For projects regarding the Barents Sea, NDEP works in conjunction with the Barents Euro-Arctic Council. Under its nuclear safety window, NDEP projects assist with spent nuclear fuel and radioactive waste management. The NDEP is delivering real benefits to the environment and to all the citizens of Northern Dimension Area countries.

Global climate change impacts the Northern Dimension regions in many ways, including causing changes in average and extreme temperatures and precipitation, warmer oceans, rising sea level and decreasing snow and ice cover on land and at sea. These have led to a range of impacts on ecosystems, socio-economic sectors and human health. Adaptation to climate change has been recognised globally as an important policy.

Mainstreaming environmental protection and awareness is essential to contribute to the achievement of the following Sustainable Development Goals⁴:

⁴ <https://sustainabledevelopment.un.org/post2015/transformingourworld>

- Goal 12. Ensure sustainable consumption and production pattern,
- Goal 13. Take urgent action to combat climate change and its impacts,
- Goal 14. Conserve and sustainably use of the oceans, seas and marine resources for sustainable development,
- Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably managed forests, combat desertification, halt and reverse land degradation and halt biodiversity loss.

Under its Partnership Instrument (PI) the EU plans to implement two actions:

- Multi-country "Cooperation for the implementation of the Paris Agreement in major economies (G20)" and
- "Development of collective approaches and responses to global challenges / environment and climate" in the Russian Federation.

These projects will address sustainable urban development and energy efficiency as well as sustainable forest management, thus contributing to the preservation of the biodiversity, fighting air and water pollution and promoting environmental performance standards, also in Russia.

Environmental awareness and its consequence, an improved ecological culture, contribute to the understanding that people are part of nature, nature is the basis for sustainable economic development and there must be a balance between environmental protection and use. Creating a population well-informed on environmental issues is an important and strategic task for a modern society.

The European Neighbourhood Instrument (ENI) Regional East Multiannual Indicative Programme 2018-2020 comprises support actions on environmental protection and awareness raising under the Northern Dimension. In order to ensure a multilevel and cross-sectoral approach in addressing environmental protection and awareness and to create impact and synergies between all EU initiatives implemented in the Northern Dimension regions, the current Call for Proposals will primarily focus on support to Russian non-state actors. The Russian civil society is innovative, active and willing to cooperate with the EU counterparts on exchanging best practices, developing effective techniques and establishing a dialogue with various stakeholders, including local authorities. The Call is highly relevant for Russia as it will contribute to the ecological culture of the younger generation.

1.2 OBJECTIVES OF THE PROGRAMME AND PRIORITY ISSUES

The **global objective** of this Call for Proposals is to contribute to the environmental education of young people in the Northern Dimension regions⁵, thus increasing awareness of the population in the environmental issues and ensuring thoughtful handling of the environmental challenges.

The **specific objectives** of this Call for Proposals are:

- To strengthen institutional capacity building of Russian Non-State Actors so that they are better prepared for:
 - educating young people in climate change awareness;
 - organising science-based activities for climate change awareness among youth;
 - supporting the sustainability of local and regional strategies and actions on climate change awareness;
- To improve links and collaboration between citizens and other stakeholders in climate change awareness raising;
- To strengthen international cooperation in climate change awareness raising by creating partnerships between Russian organisations with counterparts from the ND partner countries, and by developing links, networking and cooperation.

⁵ Murmansk Oblast, Arkhangelsk Oblast, Nents Okrug, Republic of Karelia, St. Petersburg and Leningrad Oblast, Kaliningrad Oblast, Pskov Oblast, Novgorod Oblast, Vologda Oblast

Indicative and non-exhaustive list of **activities**:

- Identify / support implementation of climate change awareness education programmes for young people (workshops, seminars, studies, lectures, field and study visits, public events and action-based activities, organisation of information campaigns);
- Promote innovations, implementation of best practices and knowledge dissemination on climate change awareness among young people;
- Develop advocacy skills and networking opportunities among Russian environmental NGOs;
- Develop / support networks of best practices and expertise conducive to developing local and regional sustainable strategies and actions on climate change awareness.

Applicants are encouraged to promote multi-stakeholder partnerships as a means to promote synergies with environment support initiatives of relevant inter-governmental institutions (BEAC, AC, CBSS)⁶.

Applicants are encouraged to give particular attention to gender equality and women's empowerment in their actions in line with EU's framework for results-oriented measures for Gender Equality and Women's Empowerment 2016-2020⁷.

1.3 FINANCIAL ALLOCATION PROVIDED BY THE CONTRACTING AUTHORITY

The overall indicative amount made available under this call for proposals is EUR 1 400 000. The Contracting Authority reserves the right not to award all available funds.

Size of grants

Any grant requested under this call for proposals must fall between the following minimum and maximum amounts:

- minimum amount: EUR 200 000,
- maximum amount: EUR 400 000.

Any grant requested under this call for proposals must fall between the following minimum and maximum percentages of total eligible costs of the action:

- minimum percentage: 50% of the total eligible costs of the action,
- maximum percentage: 95 % of the total eligible costs of the action (see also section 2.1.5).

The balance (i.e. the difference between the total cost of the action and the amount requested from the Contracting Authority) must be financed from sources other than the European Union Budget or the European Development Fund⁸.

The grant may cover the entire eligible costs of the action if this is deemed essential to carry it out. If that is the case, the lead applicant must justify full financing in Annex A.2. section 2.1. The validity of the justification provided will be examined during the evaluation procedure. The absence of any justification may lead to the rejection of the application.

⁶ BEAC – Barents Euro-Arctic Cooperation: <http://www.barentscooperation.org/en>

AC – Arctic Council: <https://arctic-council.org/index.php/en/>

CBSS – Council of the Baltic Sea States: <http://www.cbss.org/>

⁷ <http://www.consilium.europa.eu/media/24467/st13201-en15.pdf>

⁸ Where a grant is financed by the European Development Fund, any mention of European Union financing must be understood as referring to European Development Fund financing.

2 RULES FOR THIS CALL FOR PROPOSALS

These guidelines set out the rules for the submission, selection and implementation of the actions financed under this call, in conformity with the Practical Guide, which is applicable to the present call (available at <http://ec.europa.eu/europeaid/prag/document.do?locale=en>)⁹.

2.1 ELIGIBILITY CRITERIA

There are three sets of eligibility criteria, relating to:

(1) the actors:

- The **lead applicant**, i.e. the entity submitting the application form (2.1.1),
- if any, its **co-applicant(s) (where it is not specified otherwise the lead applicant and its co-applicant(s) are hereinafter jointly referred as "applicant(s)")** (2.1.1),
- and, if any, **affiliated entity(ies)** to the lead applicant and/or to a co-applicant(s). (2.1.2);

(2) the actions:

- Actions for which a grant may be awarded (2.1.4);

(3) the costs:

- types of cost that may be taken into account in setting the amount of the grant (2.1.5).

2.1.1 Eligibility of applicants (i.e. lead applicants and co-applicant(s))

Lead applicant

(1) In order to be eligible for a grant, the lead applicant must:

- be a legal person **and**
- be non-profit-making **and**
- be a non-governmental organisation¹⁰**and**
- be established¹¹ on the territory of the Russian Federation¹² in the Northern Dimension areas (Murmansk Oblast, Arkhangelsk Oblast, Nents Okrug, Republic of Karelia, St.Petersburg and Leningrad Oblast, Kaliningrad Oblast, Pskov Oblast, Novgorod Oblast, Vologda Oblast), in a Member State of the European Union, in a Member State of the European Economic Area (EEA), in Switzerland or in the Partner countries of the EU

⁹ Note that a lead applicant (i.e. a Coordinator) whose pillars have been positively assessed by the European Commission and who is awarded a grant will not sign the standard grant contract published with these guidelines but a PA Grant Agreement based on the PAGoDA template. All references in these guidelines and other documents related to this call to the standard grant contract shall in this case be understood as referring to the relevant provisions of the PAGoDA template

¹⁰ i.e. not a state, national or international governmental institution or organisation or an organisation effectively controlled by such an institution. Whether a potential applicant is likely to be considered as effectively controlled by such an institution will depend on the extent to which such an applicant can demonstrate that it is independent of the state as regards decision-making, budgetary control and the appointment of staff (including members of its controlling body).

¹¹ To be determined on the basis of the organisation's statutes that should demonstrate that it has been established by an instrument governed by the national law of the country concerned and that its head office is located in an eligible country. In this respect, any legal entity whose statutes have been established in another country cannot be considered an eligible local organisation, even if the statutes are registered locally or a 'Memorandum of Understanding' has been concluded.

¹² As recognised by international law.

European Neighbourhood - Eastern Partnership (Armenia, Azerbaijan, Belarus, Georgia, Republic of Moldova, Ukraine).

For British applicants: Please be aware that eligibility criteria must be complied with for the entire duration of the grant. If the United Kingdom withdraws from the EU during the grant period without concluding an agreement with the EU ensuring in particular that British applicants continue to be eligible, you will cease to receive EU funding (while continuing, where possible to participate) or be required to leave the project on the basis of Article 12.2 of the General Conditions¹³ to the grant agreement **and**

- be directly responsible for the preparation and management of the action with the co-applicant(s) and affiliated entity(ies), not acting as an intermediary.

(2) Potential applicants may not participate in calls for proposals or be awarded grants if they are in any of the situations listed in section 2.3.3 of the Practical Guide;

In Annex A.2, section 5 ('declaration by the lead applicant'), the lead applicant must declare that the lead applicant himself, the co-applicant(s) and affiliated entity(ies) are not in any of these situations.

The lead applicant must act with co-applicant(s) as specified hereafter.

If awarded the grant contract, the lead applicant will become the beneficiary identified as the Coordinator in Annex E3h1 (Special Conditions). The Coordinator is the main interlocutor of the Contracting Authority. It represents and acts on behalf of any other co-beneficiary (if any) and coordinates the design and implementation of the action.

Co-applicant(s)

The participation of at least 2 (two) co-applicants to the implementation of the action is obligatory.

Co-applicants participate in designing and implementing the action, and the costs they incur are eligible in the same way as those incurred by the lead applicant.

Co-applicants must satisfy the eligibility criteria as applicable to the lead applicant.

In addition to the categories referred to in section 2.1.1, the following are however also eligible:

- universities, research institutions or training institutions¹⁴ established in the Northern Dimension areas of the Russian Federation: Murmansk Oblast, Arkhangelsk Oblast, Nents Okrug, Republic of Karelia, St.Petersburg and Leningrad Oblast, Kaliningrad Oblast, Pskov Oblast, Novgorod Oblast, Vologda Oblast.

In the consortium implementing the action there must be at least one NGO established in the Northern Dimension areas of the Russian Federation¹⁵ (Murmansk Oblast, Arkhangelsk Oblast, Nents Okrug, Republic of Karelia, St.Petersburg and Leningrad Oblast, Kaliningrad Oblast, Pskov Oblast, Novgorod Oblast, Vologda Oblast), at least one NGO established in an eligible country other than the Russian Federation¹⁵ and at least one university, research institution or training institution established in the Northern Dimension areas of the Russian Federation¹⁵ (Murmansk Oblast, Arkhangelsk Oblast, Nents Okrug, Republic of Karelia, St.Petersburg and Leningrad Oblast, Kaliningrad Oblast, Pskov Oblast, Novgorod Oblast, Vologda Oblast).

Co-applicants must sign the mandate in Annex A.2., section 4.

If awarded the grant contract, the co-applicant(s) (if any) will become beneficiary(ies) in the action (together with the Coordinator).

¹³ PRAG annex e3h2.

¹⁴ The participation of universities, research institutions or training institutions to the implementation of the action must be free from any profit

¹⁵ as recognised by international law.

2.1.2 *Affiliated entities*

The lead applicant and its co-applicant(s) may act with affiliated entity(ies)

Only the following entities may be considered as affiliated entities to the lead applicant and/or to co-applicant(s):

Only entities having a structural link with the applicants (i.e. the lead applicant or a co-applicant), in particular a legal or capital link.

This structural link encompasses mainly two notions:

- (i) Control, as defined in Directive 2013/34/EU on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings:

Entities affiliated to applicant may hence be:

- Entities directly or indirectly controlled by an applicant (daughter companies or first-tier subsidiaries). They may also be entities controlled by an entity controlled by an applicant (granddaughter companies or second-tier subsidiaries) and the same applies to further tiers of control;
 - Entities directly or indirectly controlling the applicant (parent companies). Likewise, they may be entities controlling an entity controlling the applicant;
 - Entities under the same direct or indirect control as the applicant (sister companies).
- (ii) Membership, i.e. the applicant is legally defined as a e.g. network, federation, association in which the proposed affiliated entities also participate or the applicant participates in the same entity (e.g. network, federation, association) as the proposed affiliated entities.

The structural link shall as a general rule be neither limited to the action nor established for the sole purpose of its implementation. This means that the link would exist independently of the award of the grant; it should exist before the call for proposals and remain valid after the end of the action.

By way of exception, an entity may be considered as affiliated to an applicant even if it has a structural link specifically established for the sole purpose of the implementation of the action in the case of so-called "sole applicants" or "sole beneficiaries". A sole applicant or a sole beneficiary is a legal entity formed by several entities (a group of entities) which together comply with the criteria for being awarded the grant. For example, an association is formed by its members.

What is not an affiliated entity?

The following are not considered entities affiliated to an applicant:

- Entities that have entered into a (procurement) contract or subcontract with an applicant, act as concessionaires or delegates for public services for an applicant,
- Entities that receive financial support from an applicant,
- Entities that cooperate on a regular basis with an applicant on the basis of a memorandum of understanding or share some assets,
- Entities that have signed a consortium agreement under the grant contract (unless this consortium agreement leads to the creation of a "sole applicant" as described above).

How to verify the existence of the required link with an applicant?

The affiliation resulting from control may in particular be proved on the basis of the consolidated accounts of the group of entities the applicant and its proposed affiliates belong to.

The affiliation resulting from membership may in particular be proved on the basis of the statutes or equivalent act establishing the entity (network, federation, association) which the applicant constitutes or in which the applicant participates.

If the applicants are awarded a grant contract, their affiliated entity(ies) will not become beneficiary(ies) of the action and signatory(ies) of the grant contract. However, they will participate in the design and in the implementation of the action and the costs they incur (including those incurred for implementation contracts and financial support to third parties) may be accepted as eligible costs, provided they comply with all the relevant rules already applicable to the beneficiary(ies) under the grant contract.

Affiliated entity(ies) must satisfy the same eligibility criteria as the lead applicant and the co-applicant(s). They must sign the affiliated entity(ies) statement in Annex A.2., section 5.

2.1.3 Associates and Contractors

The following entities are not applicants nor affiliated entities and do not have to sign the "mandate for co-applicant(s)" or "affiliated entities' statement":

- Associates

Other organisations or individuals may be involved in the action. Such associates play a real role in the action but may not receive funding from the grant, with the exception of per diem or travel costs. Associates do not have to meet the eligibility criteria referred to in section 2.1.1. Associates must be mentioned in Annex A.2., section 4 — 'Associates participating in the action'.

- Contractors

The beneficiaries and their affiliated entities are permitted to award contracts. Associates or affiliated entity(ies) cannot be also contractors in the project. Contractors are subject to the procurement rules set out in Annex IV to the standard grant contract.

2.1.4 Eligible actions: actions for which an application may be made

Definition

An action is composed of a set of activities.

Duration

The initial planned duration of an action may not be lower than 18 months nor exceed 36 months.

Sectors or themes

The specific sectors or themes to which the action must relate are described under the section 1.2 above. **Actions must cover at least two of the Specific objectives listed at 1.2 above.**

Location

Actions must take place in the Northern Dimension areas of the Russian Federation: Murmansk Oblast, Arkhangelsk Oblast, Nents Okrug, Republic of Karelia, St. Petersburg and Leningrad Oblast, Kaliningrad Oblast, Pskov Oblast, Novgorod Oblast, Vologda Oblast.

Types of action

Any action which follows the specific objectives of this Call for Proposals could be suggested.

Actions will be selected inter alia, on the basis of their expected results and potential effectiveness. Each proposal must therefore have its own performance and success indicators, which must be objective and verifiable.

The following types of action **are ineligible**:

- actions concerned only or mainly with individual sponsorships for participation in workshops, seminars, conferences and congresses;
- actions concerned only or mainly with individual scholarships for studies or training courses;
- actions concerned only or mainly with preparatory activities such as needs assessments, stand-alone environmental surveys, tools and manuals
- action where financial support to third parties is the main purpose of the action;
- actions supporting political parties, groups and movements;
- actions which consist fully and exclusively of the production and maintenance of websites, the production of magazines and newspapers, the organisation of conferences or seminars and the production of academic studies or reports (unless a part of a broader project). Conferences can only be funded if they form part of a wider range of activities to be implemented in the life-time of the action.

Types of activity

See section 1.2, sub-section on "indicative and non-exhaustive list of activities".

Projects may include a combination of activities contributing to capacity building, awareness raising, advocacy, communication, financial support to third parties, etc. Projects should go explicitly beyond preparatory activities, such as needs assessments, stand-alone environmental surveys, tools and manuals.

Applicants are required to outline a communication and visibility plan at the stage of submission of full application. A strategic communication plan should include the following points: objectives and target groups, list of communication activities, human and financial resources.

Financial support to third parties¹⁶

Applicants may propose financial support to third parties in order to help achieving the objectives of the action.

The maximum amount of **financial support per third party is EUR 25 000**.

Under this call, financial support to third parties may not be the main purpose of the action.

In compliance with the present guidelines and notably of any conditions or restrictions in this section, the lead applicant should define mandatorily in section 2.1.1 of the grant application form:

- (i) the objectives and results to be obtained with the financial support
- (ii) the different types of activities eligible for financial support, on the basis of a fixed list
- (iii) the types of persons or categories of persons which may receive financial support
- (iv) the criteria for selecting these entities and giving the financial support
- (v) the criteria for determining the exact amount of financial support for each third entity, and
- (vi) the maximum amount which may be given

In all events, the mandatory conditions set above for giving financial support (points (i) to (vi)) have to be strictly defined in the grant contract as to avoid any exercise of discretion.

Visibility

The applicants must take all necessary steps to publicise the fact that the European Union has financed or co-financed the action. As far as possible, actions that are wholly or partially funded by the European

¹⁶ These third parties are neither affiliated entity(ies) nor associates nor contractors.

Union must incorporate information and communication activities designed to raise the awareness of specific or general audiences of the reasons for the action and the EU support for the action in the country or region concerned, as well as the results and the impact of this support.

Applicants must comply with the objectives and priorities and guarantee the visibility of the EU financing (see the Communication and Visibility Manual for EU external actions specified and published by the European Commission at https://ec.europa.eu/europeaid/communication-and-visibility-manual-eu-external-actions_en).

Number of applications and grants per applicants / affiliated entities

The lead applicant may not submit more than 1 (one) application under this call for proposals.

The lead applicant may not be awarded more than 1 (one) grant under this call for proposals.

The lead applicant may not be a co-applicant or an affiliated entity in another application at the same time.

A co-applicant/affiliated entity may not submit more than 1 (one) application under this call for proposals.

A co-applicant/affiliated entity may not be awarded more than 1 (one) grant under this call for proposals.

2.1.5 Eligibility of costs: costs that can be included

Only 'eligible costs' can be covered by a grant. The categories of costs that are eligible and non-eligible are indicated below. The budget is both a cost estimate and an overall ceiling for 'eligible costs'.

The reimbursement of eligible costs may be based on any or a combination of the following forms:

- actual costs incurred by the beneficiary(ies) and affiliated entity(ies)
- one or more simplified cost options.

Simplified cost options may take the form of:

- **unit costs:** covering all or certain specific categories of eligible costs which are clearly identified in advance by reference to an amount per unit.
- **lump sums:** covering in global terms all or certain specific categories of eligible costs which are clearly identified in advance.
- **flat-rate financing:** covering specific categories of eligible costs which are clearly identified in advance by applying a percentage fixed ex ante.

The amounts or rates have to be based on estimates using objective data such as statistical data or any other objective means or with reference to certified or auditable historical data of the applicants or the affiliated entity(ies). The methods used to determine the amounts or rates of unit costs, lump sums or flat-rates must comply with the criteria established in Annex K, and especially ensure that the costs correspond fairly to the actual costs incurred by the beneficiary(ies) and affiliated entity(ies), are in line with their accounting practices, no profit is made and the costs are not already covered by other sources of funding (no double funding). Refer to Annex K for directions and a checklist of controls to assess the minimum necessary conditions that provide reasonable assurance for the acceptance of the proposed amounts.

Applicants proposing this form of reimbursement, must clearly indicate in worksheet no.1 of Annex B, each heading/item of eligible costs concerned by this type of financing, i.e. add the reference in capital letters to "UNIT COST" (per month/flight etc), "LUMPSUM" or "FLAT RATE" in the Unit column. (see example in Annex K)

Additionally in Annex B, in the second column of worksheet no.2, "Justification of the estimated costs" per each of the corresponding budget item or heading applicants must:

- describe the information and methods used to establish the amounts of unit costs, lump sums and/or flat-rates, to which costs they refer, etc.
- clearly explain the formulas for calculation of the final eligible amount¹⁷
- identify the beneficiary who will use the simplified cost option (in case of affiliated entity, specify first the beneficiary), in order to verify the maximum amount per each beneficiary (which includes if applicable simplified cost options of its affiliated entity(ies))

At contracting phase, the Contracting Authority decides whether to accept the proposed amounts or rates on the basis of the provisional budget submitted by the applicants, by analysing factual data of grants carried out by the applicants or of similar actions and by performing checks established by Annex K.

The total amount of financing on the basis of simplified cost options that can be authorised by the Contracting Authority for any of the applicants individually (including simplified cost options proposed by their own affiliated entities) cannot exceed EUR 60 000 (the indirect costs are not taken into account).

Recommendations to award a grant are always subject to the condition that the checks preceding the signing of the grant contract do not reveal problems requiring changes to the budget (such as arithmetical errors, inaccuracies, unrealistic costs and ineligible costs). The checks may give rise to requests for clarification and may lead the Contracting Authority to impose modifications or reductions to address such mistakes or inaccuracies. It is not possible to increase the grant or the percentage of EU co-financing as a result of these corrections.

It is therefore in the applicants' interest to provide a **realistic and cost-effective budget**.

The simplified cost option may also take the form of an apportionment of Field Office's costs.

Field Office means a local infrastructure set up in one of the countries where the action is implemented or a nearby country. (Where the action is implemented in several third countries there can be more than one Field Office). That may consist of costs for local office as well as human resources.

A Field Office may be exclusively dedicated to the action financed (or co-financed) by the EU or may be used for other projects implemented in the partner country. When the Field Office is used for other projects, only the portion of capitalised and operating costs which corresponds to the duration of the action and the rate of actual use of the field office for the purpose of the action may be declared as eligible direct costs.

The portion of costs attributable to the action can be declared as actual costs or determined by the beneficiary(ies) on the basis of a simplified allocation method (apportionment).

The method of allocation has to be:

1. Compliant with the beneficiary's usual accounting and management practices and applied in a consistent manner regardless of the source of funding and
2. Based on an objective, fair and reliable allocation keys. (Please refer to Annex K to have examples of acceptable allocation keys).

A description prepared by the entity of the allocation method used to determine Field Office's costs in accordance with the entity's usual cost accounting and management practices and explaining how the

¹⁷ Examples:- for staff costs: number of hours or days of work * hourly or daily rate pre-set according to the category of personnel concerned;- for travel expenses: distance in km * pre-set cost of transport per km; number of days * daily allowance pre-set according to the country;- for specific costs arising from the organisation of an event: number of participants at the event * pre-set total cost per participant etc.

method satisfy condition 1 and 2 indicated above, has to be presented in a separate sheet and annexed to the Budget.

The method will be assessed and accepted by the evaluation committee and the Contracting Authority at contracting phase. The applicant is invited to submit (where relevant) the list of contracts to which the methodology proposed had been already applied and for which proper application was confirmed by an expenditure verification.

At the time of carrying out the expenditure verifications, the auditors will check if the costs reported are compliant with the method described by the beneficiary(ies) and accepted by the Contracting Authority.

Adequate record and documentation must be kept by the beneficiary(ies) to prove the compliance of the simplified allocation method used with the conditions set out above. Upon request of the beneficiary(ies), this compliance can be assessed and approved ex-ante by an independent external auditor. In such a case, the simplified allocation method will be automatically accepted by the evaluation committee and it will not be challenged ex post.

When costs are declared on the basis of such allocation method the amount charged to the action is to be indicated in the column "TOTAL COSTS" and the mention "APPORTIONMENT" is to be indicated in the column "units" (under budget heading 1 (Human resources) and 4 (Local Office) of the Budget).

It has to be noted that the EUR 60.000 limit, otherwise applicable to costs declared on the basis of simplified cost options, is not relevant for costs declared following apportionment of Field Offices.

Eligible direct costs

To be eligible under this call for proposals, costs must comply with the provisions of Article 14 of the General Conditions to the standard grant contract (see Annex G of the guidelines).

Salary costs of the personnel of national administrations may be eligible to the extent that they relate to the cost of activities which the relevant public authority would not carry out if the action were not undertaken.

Contingency reserve

The budget may include a contingency reserve not exceeding 5 % of the estimated direct eligible costs. It can only be used with the **prior written authorisation** of the Contracting Authority.

Eligible indirect costs

The indirect costs incurred in carrying out the action may be eligible for flat-rate funding, but the total must not exceed 7 % of the estimated total eligible direct costs. Indirect costs are eligible provided that they do not include costs assigned to another budget heading in the standard grant contract. The lead applicant may be asked to justify the percentage requested before the grant contract is signed. However, once the flat rate has been fixed in the Special Conditions of the grant contract, no supporting documents need to be provided.

If any of the applicants or affiliated entity(ies) is in receipt of an operating grant financed by the EU, it may not claim indirect costs on its incurred costs within the proposed budget for the action.

Contributions in kind

Contributions in kind mean the provision of goods or services to a beneficiaries or affiliated entities free of charge by a third party. As contributions in kind do not involve any expenditure for beneficiaries or affiliated entities, they are not eligible costs.

Contributions in kind may not be treated as co-financing.

However, if the description of the action as proposed includes contributions in kind, the contributions have to be made.

Ineligible costs

The following costs are not eligible:

- debts and debt service charges (interest);
- provisions for losses or potential future liabilities;
- costs declared by the beneficiary(ies) and financed by another action or work programme receiving a European Union (including through EDF) grant;
- purchases of land or buildings, except where necessary for the direct implementation of the action, in which case ownership must be transferred, in accordance with Article 7.5 of the General Conditions of the standard grant contract, at the latest at the end of the action;
- currency exchange losses;
- credit to third parties.

2.2 HOW TO APPLY AND THE PROCEDURES TO FOLLOW

To apply for this call for proposals the lead applicants need to:

- I. Provide information about the organisations involved in the action. Please note that the registration of this data in **PADOR is obligatory**¹⁸ for this call for proposals:

Concept note step: Registration is obligatory for lead applicants applying for EU contributions of more than EUR 60 000.

Full application step: Registration is obligatory for co-applicant(s) and affiliated entity(ies). Lead applicants must make sure that their PADOR profile is up to date.

- II. Provide information about the action in the documents listed under sections 2.2.2 (concept note) and 2.2.5 (full application). Please note that online submission via **PROSPECT is obligatory** for this call,

PADOR is an on-line database in which organisations register and update information concerning their entity. Organisations registered in PADOR get a unique ID (EuropeAid ID) which they **must mention** in their application. PADOR is accessible via the website: http://ec.europa.eu/europeaid/pador_en

It is strongly recommended to register in PADOR well in advance and not to wait until the last minute before the deadline to submit your application in PROSPECT.

If it is impossible to register online in PADOR for technical reasons, the applicants and/or affiliated entity(ies) must complete the ‘PADOR off-line form’¹⁹ attached to these guidelines. This form must be sent **together with the application**, by the submission deadline (see sections 2.2.2 and 2.2.5).

Before starting using PADOR and PROSPECT, please read the user guides available on the website. All technical questions related the use of these systems should be addressed to the IT helpdesk at EuropeAid-IT-support@ec.europa.eu **via the online support form in PROSPECT.**

2.2.1 Concept note content

Applications must be submitted in accordance with the concept note instructions in the grant application form²⁰ annexed to these guidelines (Annex A.1). Applicants must apply in English.

¹⁸ Natural persons who apply for a grant (if so allowed in the guidelines for applicants) do not have to register in PADOR. In this case, the information included in PROSPECT and the grant application form is sufficient.

¹⁹ Which corresponds to sections 3 and 4 of the full application form – Annex A.2

Please note that:

1. In the concept note lead applicants must provide only an estimate of the **requested EU contribution**, as well as an indicative percentage of this contribution in relation to the total eligible costs of the action. A detailed budget is to be submitted only by lead applicants invited to submit a full application in the second phase

2. The elements outlined in the concept note may not be modified in the full application form. The EU contribution may not vary from the initial estimate by more than 20%. Lead applicants are free to adapt the requested EU contribution as a percentage of the total eligible costs within the minimum and maximum amounts and percentages provided in section 1.3. The lead applicant may replace a co-applicant or an affiliated entity only in duly justified cases (e.g. bankruptcy of initial co-applicant or affiliated entity). In this case the new co-applicant/affiliated entity must be of a similar nature as the initial one. The lead applicant may adjust the duration of the action if unforeseen circumstances outside the scope of the applicants have taken place following the submission of the concept note and require such adaptation (risk of action not being carried out). In such cases the duration must remain within the limits imposed by the guidelines for applicants. An explanation/justification of the relevant replacement/adjustment shall be included in section 2.1.1 of the grant application form.

Own contributions by the applicants can be replaced by other donors' contributions at any time.

3. Only the concept note form will be evaluated. It is therefore of utmost importance that this document contains **all relevant information** concerning the action. **No additional annexes should be sent.**

Any error or major discrepancy related to the concept note instructions may lead to the rejection of the concept note.

Clarifications will only be requested when information provided is not sufficient to conduct an objective assessment.

2.2.2 Where and how to send concept notes

The concept note together with the declaration by the lead applicant (Annex A.1 section 2) **must be submitted online via PROSPECT** <https://webgate.ec.europa.eu/europeaid/prospect> following the instructions given in the PROSPECT user manual.

Upon submission of a concept note online, the lead applicant will receive an automatic confirmation of receipt in its PROSPECT profile.

If it is impossible for lead applicants to submit their concept note online via PROSPECT for technical reasons, they must send their proposal in a sealed envelope and attach the concept note together with the declaration by the lead applicant (**Annex A.1 section 2**). In particular, the lead applicant must send, in a sealed envelope as described below the following items:

a. One original of the concept note. The signed declaration by the lead applicant (Annex A.1 section 2) must be printed and stapled separately and enclosed in the envelope

b. An electronic version (e.g. CD-Rom) of the items under point (a). The electronic file must contain **exactly the same** application as the paper version enclosed.

The envelope must bear the **reference number (EuropeAid/159349/DH/ACT/RU) and the title of the call for proposals "Raising awareness of climate change and its impacts among young people of Northern Dimension regions"** together with the full name and address of the lead applicant, and the words 'Not to be opened before the opening session'.

²⁰ The grant application form consists of Annex A.1 – concept note and Annex A.2 – full application form.

To reduce expense and waste, we strongly recommend that you do not use plastic folders or dividers. Please also use double-sided printing if possible.

Concept notes must be submitted in a sealed envelope by registered mail, private courier service or by hand-delivery (a signed and dated certificate of receipt will be given to the deliverer) to the address below. Where lead applicants send several concept notes (if allowed to do so by the guidelines of the call), each one must be sent separately:

Postal address

European Commission
Directorate-General for Neighbourhood and Enlargement Negotiations
Unit NEAR R.4 (Contracts and Finance ENI)
Office J54 03/229
Avenue du Bourget 1
B-1049 Brussels, Belgium

Address for hand delivery or by private courier service

European Commission
Directorate-General for Neighbourhood and Enlargement Negotiations
Unit NEAR R.4 (Contracts and Finance ENI)
Office J54 03/229
Avenue du Bourget 1
B-1049 Brussels, Belgium

Concept notes sent by any other means (e.g. by fax or by e-mail) or delivered to other addresses will be rejected. Hand-written concept notes will not be accepted.

Please note that incomplete concept notes may be rejected. Lead applicants are advised to verify that their concept note is complete by using the checklist for concept note (Annex A.1, Instructions).

2.2.3 Deadline for submission of concept notes

The deadline for the submission of concept notes is **21 May 2018 at 15:30** (Brussels date and time). In order to convert this deadline to local time you can use any online time converter tool that takes into account time zones and winter/summer time changes (example available [here](#))²¹ **The lead applicant is strongly advised not to wait until the last day to submit** its concept note, since heavy Internet traffic or a fault with the Internet connection (including electricity failure, etc.) could lead to difficulties in submission. The Contacting Authority cannot be held responsible for any delay due to such aforementioned difficulties.

In the exceptional case of submission by post or by hand delivery (see section 2.2.2), the date of submission is evidenced by the date of dispatch, the postmark or the date of the deposit slip. In the case of hand-deliveries, the deadline for receipt is at 15:30 Brussels time²² as evidenced by the signed and dated receipt.

Any concept note submitted after the deadline will be rejected.

However, for reasons of administrative efficiency, the Contracting Authority may also reject any concept note sent in due time but received after the effective date of approval of the concept note evaluation (see indicative calendar under section 2.5.2).

²¹ For example: <http://www.timeanddate.com/worldclock/converter.html>.

²² Please use an online time converter tool, such as the one presented in the footnote above.

2.2.4 Further information about concept notes

Questions may be sent by e-mail no later than 21 days before the deadline for the submission of concept notes to the address(es) below, indicating clearly the reference of the call for proposals:

E-mail address: NEAR-ENI-EAST-TENDERS@ec.europa.eu

Fax number: +32 2 292 14 81

The Contracting Authority has no obligation to provide clarifications to questions received after this date.

Replies will be given no later than 11 days before the deadline for submission of concept notes.

To ensure equal treatment of applicants, the contracting authority cannot give a prior opinion on the eligibility of lead applicants, co-applicants, affiliated entity(ies), an action or specific activities.

No individual replies will be given to questions. All questions and answers as well as other important notices to applicants during the course of the evaluation procedure will be published on the EuropeAid website <https://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome> and the website of the EU Delegation to Russia http://eeas.europa.eu/delegations/russia/index_en.htm, as appropriate. It is therefore advisable to consult the abovementioned website regularly in order to be informed of the questions and answers published.

All questions related to registration in PADOR or the online submission via PROSPECT should be addressed to the IT helpdesk at EuropeAid-IT-support@ec.europa.eu **via the online support form in PROSPECT**: Please note that the working languages of the IT support are: English French and Spanish. Therefore users are invited to send their questions in English, French or Spanish should they wish to benefit from an optimum response time.

2.2.5 Full applications

Lead applicants invited to submit a full application following pre-selection of their concept note must do so using the full application form annexed to these guidelines (Annex A.2).

Applications must be submitted in accordance with the full application instructions at the end of Annex A.2. Lead applicants must submit their full applications in the same language as their concept notes.

Please note that:

1. The elements outlined in the concept note cannot be modified by the lead applicant in the full application form. The EU contribution may not vary from the initial estimate by more than 20 %, although lead applicants are free to adapt the percentage of co-financing required within the minimum and maximum amount and percentages of co-financing, as laid down in these guidelines under section 1.3. The lead applicant may replace a co-applicant or an affiliated entity only in duly justified cases (e.g. bankruptcy of initial co-applicant or affiliated entity). In this case the new co-applicant/affiliated entity must be of a similar nature as the initial one. The lead applicant may adjust the duration of the action if unforeseen circumstances outside the scope of the applicants have taken place following the submission of the concept note and require such adaptation (risk of action not being carried out). An explanation/justification of the relevant replacement/adjustment shall be included in section 2.1.1 of the grant application form.
2. A copy of the lead applicant's accounts of the latest financial year (the profit and loss account and the balance sheet for the last financial year for which the accounts have been closed) must be uploaded in PADOR by the full application deadline. A copy of the latest account is neither required from (if any) the co-applicant(s) nor from (if any) affiliated entity(ies).
3. Only the full application form and the published annexes which have to be filled in (budget, logical framework) will be transmitted to the evaluators (and assessors, if used). It is therefore of utmost importance that these documents contain **ALL the relevant information** concerning the action. **No additional annexes should be sent.**

Any error or any major inconsistency related to the full application instructions (e.g. if the amounts in the budget worksheets are inconsistent) may lead to the rejection of the application.

Clarifications will only be requested when information provided is unclear and thus prevents the Contracting Authority from conducting an objective assessment.

2.2.6 Where and how to send full applications

Full application forms together with the budget, the logical framework and the declaration by the lead applicant must be submitted online via PROSPECT <https://webgate.ec.europa.eu/europeaid/prospect> following the instructions given in the users' manual.

Upon submission of the full application online, the lead applicants will receive an automatic confirmation of receipt in their PROSPECT profile.

(a) If the lead applicant submitted the concept note by post / hand delivery (see section 2.2.3) it must send the full application by the same means (by post or hand delivery).

(b) If the lead applicant submitted the concept note online via PROSPECT but it is technically impossible for the organisation to submit the full application online:

In the above two cases the lead applicant must send by post the application, i.e the full application form, the budget, the logical framework and the declaration by the lead applicant. The lead applicant must send, in a sealed envelope as described below, the following items:

a. One original signed copy of the full application form, the budget and the logical framework. The declaration by the lead applicant (Annex A.2, section 5) must be printed and stapled separately and enclosed in the envelope

b. An electronic version (e.g.CD-Rom) of the items under point (a). The electronic file must contain exactly the same application as the paper version enclosed.

To reduce expense and waste, we strongly recommend that you use only paper for your file (no plastic folders or dividers). Please also use double-sided printing if possible.

Applications must be submitted in a sealed envelope by registered mail, private courier service or by hand-delivery (a signed and dated certificate of receipt will be given to the deliverer) to the address below. Where lead applicants send several applications (if allowed to do so by the guidelines of the call), each one must be sent separately:

Postal address

**European Commission
Directorate-General for Neighbourhood and Enlargement Negotiations
Unit NEAR R.4 (Contracts and Finance ENI)
Office J54 03/229
Avenue du Bourget 1
B-1049 Brussels, Belgium**

Address for hand delivery or by private courier service

**European Commission
Directorate-General for Neighbourhood and Enlargement Negotiations
Unit NEAR R.4 (Contracts and Finance ENI)
Office J54 03/229
Avenue du Bourget 1
B-1049 Brussels, Belgium**

The envelope must bear the **reference number (EuropeAid/159349/DH/ACT/RU) and the title of the call for proposals "Raising awareness of climate change and its impacts among young people of Northern Dimension regions"** together with the number and title of the lot, the full name and address of the lead applicant, and the words 'Not to be opened before the opening session'.

Applications sent by any other means (e.g. by fax or by e-mail) or delivered to other addresses will be rejected. Hand-written applications will not be accepted.

Please note that incomplete applications may be rejected. Lead applicants are advised to verify that their application is complete using the checklist (Annex A.2, Instructions).

2.2.7 Deadline for submission of full applications

The deadline for the submission of full applications will be indicated in the letter sent to the lead applicants whose application has been pre-selected. This letter will appear online automatically in the PROSPECT profile of the lead applicant. Lead applicants, who, in exceptional cases (see section 2.2.6) had to submit their application by post or hand-delivery, will receive the letter by email or by post if no e-mail address was provided.

Lead applicants are strongly advised not to wait until the last day to submit their full applications, since heavy Internet traffic or a fault with the Internet connection (including electricity failure, etc.) could lead to difficulties in submission. The Contacting Authority cannot be held responsible for any delay due to such afore-mentioned difficulties.

In the case of submission by post, (see section 2.2.6), the date of submission is evidenced by the date of dispatch, the postmark or the date of the deposit slip. In the case of hand-deliveries, the deadline for receipt is at 15:30 Brussels time²³ as evidenced by the signed and dated receipt.

Any application submitted after the deadline will be rejected.

However, for reasons of administrative efficiency, the Contracting Authority may also reject any full application sent in due time but received after the effective date of approval of the full application evaluation (see indicative calendar under section 2.5.2)

2.2.8 Further information about full applications

Questions may be sent by e-mail no later than 21 days before the deadline for the submission of full applications to the addresses listed below, indicating clearly the reference of the call for proposals:

E-mail address: NEAR-ENI-EAST-TENDERS@ec.europa.eu

Fax number: +32 2 292 14 81

The Contracting Authority has no obligation to provide clarifications to questions received after this date.

Replies will be given no later than 11 days before the deadline for the submission of applications.

To ensure equal treatment of applicants, the Contracting Authority cannot give a prior opinion on the eligibility of lead applicants, co-applicants, affiliated entity(ies), or an action.

No individual replies will be given to questions. All questions and answers as well as other important notices to applicants during the course of the evaluation procedure, will be published on the EuropeAid

²³ Please use an online time converter tool, such as <http://www.timeanddate.com/worldclock/converter.html>.

website <https://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome> and the website of the EU Delegation to Russia http://eeas.europa.eu/delegations/russia/index_en.htm, as appropriate. It is therefore advisable to consult the abovementioned website regularly in order to be informed of the questions and answers published.

All questions related to registration in PADOR or the online submission via PROSPECT should be addressed to the IT helpdesk at EuropeAid-IT-support@ec.europa.eu **via the online support form in PROSPECT**. Please note that the working languages of the IT support are: English French and Spanish. Therefore users are invited to send their questions in English, French or Spanish should they wish to benefit from an optimum response time.

2.3 EVALUATION AND SELECTION OF APPLICATIONS

Applications will be examined and evaluated by the Contracting Authority with the possible assistance of external assessors. All applications will be assessed according to the following steps and criteria.

If the examination of the application reveals that the proposed action does not meet the eligibility criteria stated in section 2.1, the application will be rejected on this sole basis.

STEP 1: OPENING & ADMINISTRATIVE CHECKS AND CONCEPT NOTE EVALUATION

During the opening²⁴ and administrative check (including the eligibility check of the action) the following will be assessed:

- If the deadline has been met. Otherwise, the application will be automatically rejected.
- If the concept note satisfies all the criteria specified in the checklist in the instructions included in Annex A.1. This includes also an assessment of the eligibility of the action. If any of the requested information is missing or is incorrect, the application may be rejected on that sole basis and the application will not be evaluated further.

The concept notes that pass this check will be evaluated on the relevance and design of the proposed action.

The concept notes will receive an overall score out of 50 in line with the evaluation grid below. The evaluation will also check the compliance with the instructions on how to complete the concept note (Annex A.1).

²⁴ Only where some applications have been submitted offline.

The evaluation criteria are divided into headings and subheadings. Each subheading will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

Evaluation Grid

Section	Maximum Score
1. Relevance of the action	30
1.1. How relevant is the proposal to the objectives and priorities of the Call for Proposals?	5x2**
1.2. How relevant to the particular needs and constraints of the target country(ies) or region(s) is the proposal (including synergy with other EU initiatives and avoidance of duplication)?	5x2**
1.3. How clearly defined and strategically chosen are those involved (final beneficiaries, target groups)? Have their needs been clearly defined and does the proposal address them appropriately?	5
1.4. Does the proposal contain specific added-value elements, such as environmental issues, promotion of gender equality and equal opportunities, needs of disabled people, rights of minorities and rights of indigenous peoples, or innovation and best practices (and the other additional elements indicated under 1.2 of these guidelines)?	5
2. Design of the action	20
2.1. How coherent is the overall design of the action? In particular, does it reflect the analysis of the problems involved, take into account external factors and relevant stakeholders?	5x2**
2.2. Is the action feasible and consistent in relation to the objectives and expected results?	5x2**
Maximum total score	50

**these scores are multiplied by 2 because of their importance

Concept notes with a score lower than 30 will be rejected.

Concept notes that reach the above threshold will be ranked by score. The highest scoring applications will be pre-selected until the limit of 200% of the available budget for this call for proposals is reached.

The amount of requested contributions of each concept note will be based on the indicative financial envelopes for each lot, where relevant.

Lead applicants will receive a letter indicating the reference number of their application and the respective results. This letter will automatically appear online in the PROSPECT profile of the lead applicant. Lead applicants who, in exceptional cases (see section 2.2), had to submit their application by post or hand-delivery will receive the letter by email or by post if no e-mail address was provided.

The pre-selected lead applicants will subsequently be invited to submit full applications.

STEP 2: OPENING & ADMINISTRATIVE CHECK AND EVALUATION OF THE FULL APPLICATION

During the opening²⁵ and administrative check (including the eligibility check of the action) for full applications the following will be assessed:

- If the submission deadline has been met. Otherwise, the application will automatically be rejected.
- If the full application satisfies all the criteria specified in the checklist in Annex A.2. This includes also an assessment of the eligibility of the action. If any of the requested information is missing or is incorrect, the application may be rejected on that **sole** basis and the application will not be evaluated further.

The full applications that pass this check will be further evaluated on their quality, including the proposed budget and the capacity of the applicants and affiliated entity(ies). The evaluation criteria used are presented in the evaluation grid below. There are two types of evaluation criteria: selection and award criteria.

The selection criteria help to evaluate the applicant(s)'s and affiliated entity(ies)'s operational capacity and the lead applicant's financial capacity and are used to verify that they:

- have stable and sufficient sources of finance to maintain their activity throughout the proposed action and, where appropriate, to participate in its funding (this only applies to lead applicants);
- have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This applies to applicants and to any affiliated entity(ies).

For the purpose of the evaluation of the financial capacity, lead applicants must ensure that the relevant information and documents (i.e. accounts of the latest financial year and external audit report, where applicable) in their PADOR profile are up to date. If the information and documents in PADOR are outdated and do not allow for a proper evaluation of the financial capacity, the application may be rejected.

The award criteria help to evaluate the quality of the applications in relation to the objectives and priorities set forth in the guidelines, and to award grants to projects which maximise the overall effectiveness of the call for proposals. They help to select applications which the Contracting Authority can be confident will comply with its objectives and priorities. They cover the relevance of the action, its consistency with the objectives of the call for proposals, quality, expected impact, sustainability and cost-effectiveness.

²⁵ Only where some applications have been submitted offline.

The evaluation grid is divided into sections and subsections. Each subsection will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

Evaluation Grid²⁶

Section	Maximum Score
1. Financial and operational capacity	20
1.1. Do the applicants and, if applicable, their affiliated entity(ies) have sufficient experience of project management?	5
1.2. Do the applicants and, if applicable, their affiliated entity(ies) have sufficient technical expertise (especially knowledge of the issues to be addressed)?	5
1.3. Do the applicants and, if applicable, their affiliated entity(ies) have sufficient management capacity (including staff, equipment and ability to handle the budget for the action)?	5
1.4. Does the lead applicant have stable and sufficient sources of finance?	5
2. Relevance of the action	30
2.1. How relevant is the proposal to the objectives and priorities of the Call for Proposals?	5x2**
2.2. How relevant to the particular needs and constraints of the target country(ies) or region(s) is the proposal (including synergy with other EU initiatives and avoidance of duplication)?	5x2**
2.3. How clearly defined and strategically chosen are those involved (final beneficiaries, target groups)? Have their needs been clearly defined and does the proposal address them appropriately?	5
2.4. Does the proposal contain specific added-value elements, such as environmental issues, promotion of gender equality and equal opportunities, needs of disabled people, rights of minorities and rights of indigenous peoples, or innovation and best practices [and the other additional elements indicated under 1.2. of these guidelines]?	5
3. Effectiveness and feasibility of the action	20
3.1. Are the activities proposed appropriate, practical, and consistent with the objectives and expected results?	5
3.2. Is the action plan clear and feasible?	5
3.3. Does the proposal contain objectively verifiable indicators for the outcome of the action? Is any evaluation planned?	5
3.4. Is the co-applicant(s)'s and affiliated entity(ies)'s level of involvement and participation in the action satisfactory?	5

²⁶ Note that the relevance may be re-evaluated in the cases described in sections 6.5.7 and 6.5.8. of the Practical Guide.

4. Sustainability of the action	15
4.1. Is the action likely to have a tangible impact on its target groups?	5
4.2. Is the proposal likely to have multiplier effects (including scope for replication, extension and information sharing)?	5
4.3. Are the expected results of the proposed action sustainable?:(1) financially (how will the activities be financed after the funding ends?)(2) institutionally (will structures allowing the activities to continue be in place at the end of the action? Will there be local 'ownership' of the results of the action?)(3) at policy level (where applicable) (what will be the structural impact of the action — e.g. will it lead to improved legislation, codes of conduct, methods, etc?)(4) environmentally (if applicable) (will the action have a negative/positive environmental impact?)"	5
5. Budget and cost-effectiveness of the action	15
5.1. Are the activities appropriately reflected in the budget?	5
5.2. Is the ratio between the estimated costs and the expected results satisfactory?	10
Maximum total score	100

If the total score for section 1 (financial and operational capacity) is less than 12 points, the application will be rejected. If the score for at least one of the subsections under section 1 is 1, the application will also be rejected.

If the lead applicant applies without co-applicants or affiliated entities the score for point 3.4 shall be 5 unless the involvement of co-applicants or affiliated entities is mandatory according to these guidelines for applicants.

Note that (members of) the evaluation committee or internal assessors evaluating the full applications may re-evaluate the scores given for the relevance at concept note stage and transferred to the full application.

After the evaluation, applications will be ranked according to their score. The highest scoring applications will be provisionally selected until the available budget for this call for proposals is reached.

In addition, a reserve list will be drawn up following the same criteria. This list will be used if more funds become available during the validity period of the reserve list.

STEP 3: VERIFICATION OF ELIGIBILITY OF THE APPLICANTS AND AFFILIATED ENTITY(IES)

The eligibility verification will be performed on the basis of the supporting documents requested by the Contracting Authority (see section 2.4). It will only be performed for the applications that have been provisionally selected according to their score and within the available budget for this call for proposals.

- The declaration by the lead applicant (section 5 of Annex A.2) will be cross-checked with the supporting documents provided by the lead applicant. Any missing supporting document or any incoherence between the declaration by the lead applicant and the supporting documents may lead to the rejection of the application on that sole basis.
- The eligibility of applicants and the affiliated entity(ies) will be verified according to the criteria set out in sections 2.1.1, 2.1.2 and 2.1.3.

Any rejected application will be replaced by the next best placed application on the reserve list that falls within the available budget for this call for proposals.

2.4 SUBMISSION OF SUPPORTING DOCUMENTS FOR PROVISIONALLY SELECTED APPLICATIONS

A lead applicant whose application has been provisionally selected or placed on the reserve list will be informed in writing by the Contracting Authority. It will be requested to supply the following documents in order to allow the Contracting Authority to verify the eligibility of the lead applicant, (if any) of the co-applicant(s) and (if any) of their affiliated entity(ies)²⁷:

Supporting documents must be provided through PADOR (see section 2.2)

1. The statutes or articles of association of the lead applicant, (if any) of each co-applicant and (if any) of each affiliated entity²⁸. Where the Contracting Authority has recognised the lead applicant's, or the co-applicant(s)'s, or their affiliated entity(ies)'s eligibility for another call for proposals under the same budget line within 2 years before the deadline for receipt of applications, it should be submitted, instead of the statutes or articles of association, a copy of the document proving their eligibility in a former call (e.g. a copy of the Special Conditions of a grant contract received during the reference period), unless a change in legal status has occurred in the meantime²⁹. This obligation does not apply to international organisations which have signed a framework agreement with the European Commission.
2. An external audit report produced by an approved auditor, certifying the lead applicant's accounts for the last financial year available where the total amount of the requested EU contribution exceeds EUR 750 000 (EUR 100 000 for an operating grant). The external audit report is not required from (if any) the co-applicant(s) or affiliated entity(ies).

This obligation does not apply to public bodies and international organisations provided that the international organisation in question offers the guarantees provided for in the applicable Financial Regulation, as described in chapter 6 of the Practical Guide.

This obligation does not apply to secondary and higher education establishments.

3. Legal entity sheet (see Annex D of these guidelines) duly completed and signed by each of the applicants (i.e. by the lead applicant and (if any) by each co-applicant), accompanied by the justifying documents requested there. If the applicants have already signed a contract with the

27 No supporting document will be requested for applications for a grant not exceeding EUR 60000.

28 Where the lead applicant and/or a co-applicant(s) and or an affiliated entity(ies) is a public body created by a law, a copy of the said law must be provided.

29 To be inserted only where the eligibility conditions have not changed from one call for proposals to the other.

Contracting Authority, instead of the legal entity sheet and supporting documents, the legal entity number may be provided, unless a change in legal status occurred in the meantime.

4. A financial identification form of the lead applicant (not from co-applicant(s), nor from affiliated entity(ies)) conforming to the model attached at Annex E of these guidelines, certified by the bank to which the payments will be made. This bank should be located in the country where the lead applicant is established. If the lead applicant has already submitted a financial identification form in the past for a contract where the European Commission was in charge of the payments and intends to use the same bank account, a copy of the previous financial identification form may be provided instead.

The requested supporting documents (uploaded in PADOR or sent together with the PADOR offline form) must be supplied in the form of originals, photocopies or scanned versions (i.e. showing legible stamps, signatures and dates) of the said originals.

Where such documents are not in one of the official languages of the European Union, a translation into English of the relevant parts of these documents proving the lead applicant's and, where applicable, co-applicants' and affiliated entity(ies)' eligibility must be attached for the purpose of analysing the application.

Where these documents are in an official language of the European Union other than English, it is **strongly** recommended, in order to facilitate the evaluation, to provide a translation of the relevant parts of the documents, proving the lead applicants' and, where applicable, co-applicants' and affiliated entity(ies)' eligibility, into English.

Applicants have to take into consideration the time necessary to obtain official documents from national competent authorities and to translate such documents in the authorised languages while registering their data in PADOR.

If the abovementioned supporting documents are not provided before the deadline indicated in the request for supporting documents sent to the lead applicant by the Contracting Authority, the application may be rejected.

After verifying the supporting documents, the evaluation committee will make a final recommendation to the Contracting Authority, which will decide on the award of grants.

NB : In the eventuality that the Contracting Authority is not satisfied with the strength, solidity, and guarantee offered by the structural link between one of the applicants and its affiliated entity, it can require the submission of the missing documents allowing for its conversion into co-applicant. If all the missing documents for co-applicants are submitted, and provided all necessary eligibility criteria are fulfilled, the above mentioned entity becomes a co-applicant for all purposes. The lead applicant has to submit the application form revised accordingly.

2.5 NOTIFICATION OF THE CONTRACTING AUTHORITY'S DECISION

2.5.1 Content of the decision

The lead applicants will be informed in writing of the Contracting Authority's decision concerning their application and, if rejected, the reasons for the negative decision. This letter will be sent by e-mail and will appear online automatically in the PROSPECT profile of the user who submitted the application. Lead applicants who, in exceptional cases (see section 2.2), had to submit their application by post or hand-delivery, will be informed by email or by post if they did not provide any e-mail address. Therefore, please check regularly your PROSPECT profile, taking into account the indicative timetable below.

An applicant believing that it has been harmed by an error or irregularity during the award process may lodge a complaint. See further section 2.4.15 of the Practical Guide.

2.5.2 Indicative timetable

	DATE	TIME
1. Information meeting, if any (local time)	Not applicable	Not applicable
2. Deadline for requesting any clarifications from the Contracting Authority	30 April 2018	15:30
3. Last date on which clarifications are issued by the Contracting Authority	10 May 2018	-
4. Deadline for submission of concept notes	21 May 2018	15:30
5. Information to lead applicants on opening, administrative checks and concept note evaluation (Step 1)	June 2018	-
6. Invitations to submit full applications	2 July 2018	-
7. Deadline for submission of full applications	7 September 2018	-
8. Information to lead applicants on the evaluation of the full applications (Step 2)³⁰	October 2018	-
9. Notification of award (after the eligibility check) (Step 3)	October 2018	-
10. Contract signature³¹	November 2018	-

All dates and times are expressed in Brussels time, where it is not specified otherwise.

This indicative timetable refers to provisional dates (except for dates 2, 3 and 4) and may be updated by the Contracting Authority during the procedure. In such cases, the updated timetable will be published on the EuropeAid web site <https://webgate.ec.europa.eu/europeaid/online-services/index.cfm?do=publi.welcome> and the website of the EU Delegation to Russia http://eeas.europa.eu/delegations/russia/index_en.htm.

30 Note that according to the financial regulation, in direct management, applicants must be notified the outcome of the evaluation of their applications within 6 months following the submission deadline of the full application. This time-limit may be exceeded in exceptional cases, in particular for complex actions (including multi-beneficiary calls), large number of proposals or in case of delays attributable to the applicants.

31 Note that according to the financial regulation, in direct management the grant contract must be signed within 3 months following the notification of the award decision. This time-limit may be exceeded in exceptional cases, in particular for complex actions (including multi-beneficiary calls), large number of proposals or in case of delays attributable to the applicants.

2.6 CONDITIONS FOR IMPLEMENTATION AFTER THE CONTRACTING AUTHORITY'S DECISION TO AWARD A GRANT

Following the decision to award a grant, the beneficiary(ies) will be offered a contract based on the standard grant contract (see Annex G of these guidelines). By signing the application form (Annex A of these guidelines), the applicants agree, if awarded a grant, to accept the contractual conditions of the standard grant contract. Where the Coordinator is an organisation whose pillars have been positively assessed, it will sign a PA Grant Agreement based on the PAGO DA template. In this case references to provisions of the standard grant contract and its annexes shall not apply. References in these guidelines to the grant contract shall be understood as references to the relevant provisions of the PA Grant Agreement.

Implementation contracts

Where implementation of the action requires the beneficiary(ies) and its affiliated entity(ies) (if any) to award procurement contracts, those contracts must be awarded in accordance with Annex IV to the standard grant contract.

2.7 EARLY DETECTION AND EXCLUSION SYSTEM (EDES)

The applicants and, if they are legal entities, the persons who have powers of representation, decision-making or control over them, are informed that, should they be in one of the situations mentioned in section 2.3.3.1 or 2.3.3.2 of the Practical Guide their personal details (name, given name (if natural person), address, legal form and name and given name of the persons with powers of representation, decision-making or control (if legal person)) may be registered in the EDES. For further information see section 2.3.3 and 2.3.4 of the Practical Guide.

3 LIST OF ANNEXES

DOCUMENTS TO BE COMPLETED

- Annex A: Grant Application Form (Word format)
- A.1. Concept Note
 - A.2. Full Application Form
- Annex B: Budget (Excel format)
- Annex C: Logical Framework (Word format)
- Annex D: Legal Entity Sheet
- Annex E: Financial identification form
- Annex F: PADOR off Line Form (***ONLY IF IMPOSSIBLE TO REGISTER IN PADOR***)

DOCUMENTS FOR INFORMATION³²

- Annex G: Standard Grant Contract and annex e3h11 of PRAG
- Annex II: general conditions
 - Annex IV: contract award rules
 - Annex V: standard request for payment
 - Annex VI: model narrative and financial report
 - Annex VII: model report of factual findings and terms of reference for an expenditure verification of an EU financed grant contract for external action
 - Annex VIII: model financial guarantee
 - Annex IX: standard template for transfer of ownership of assets
 - Appendix I: Derogation International Organisations (annex e3h11 of PRAG)
- Annex H: Daily allowance rates (per diem), available at the following address:
http://ec.europa.eu/europeaid/funding/about-procurement-contracts/procedures-and-practical-guide-prag/diems_en
- Annex J: Information on the tax regime applicable to grant contracts signed under the call
- Annex K: Guidelines and Checklist for assessing Budget and Simplified cost options.
- Annex L : e-learning :
- <https://webgate.ec.europa.eu/europeaid/prospect/external/>
- Annex M : user manual for PROSPECT :
- <https://webgate.ec.europa.eu/europeaid/prospect/external/>

³² These documents should also be published by the Contracting Authority.
