BIOTECHNOLOGIES IN CHEMICAL AND FOREST INDUSTRY

11-12 September 2014

Arkhangelsk

Dear colleagues!

You are cordially invited to participate in the International scientific conference «**Biotechnologies in chemical and forest industry**», organized by Northern (Arctic) Federal University named after M.V. Lomonosov (NArFU) with support of Russian Biofuels Association and Technological Platforms: «BioTech2030» and «Bioenergy». The Conference will be held at the NArFU Institute of Theoretical and Applied Chemistry **from 11 to 12 September 2014**.

Conference scientific program includes following directions:

- 1. Bioconversion of plant raw-materials**
- 2. High efficient production of biocatalysts for application in chemical and forest industry**
- 3. Fundamental and applied aspects of enzymatic analysis in chemical and forest industry**
- 4. Enzymatic technologies in pulp and paper industry**
- 5. Modern methods of waste water treatment**
- 6. Forest biotechnology**

Plenary and sectional sessions as well as poster presentations are planned to be held in the Conference. The conference proceedings will be published as a book.

Young Scientist School «Modern trends for formation of high efficient enzymatic complexes for plant bioconversion» will be held as a part of the Conference.

Conference official languages are Russian and English.

Deadlines:

The registration form of the conference participant should be sent by **12 May 2014**.
